Dear Messrs Kučinskis and Vucāns,  
Dear Madam Reizniece-Ozola,

*Non-conformity report regarding the reallocation of appropriations from the Ministry of Finance's budget sub-programmes "Contributions to the budget of the European Community"*

According to Part 1, Section 28 of the Fiscal discipline law, the Fiscal discipline council (hereafter – Council) shall monitor whether the medium term budget framework law and the annual state budget law are prepared and implemented in compliance with the fiscal rules stipulated in the Fiscal discipline law.

According to Article 29 Part 2 the Council shall prepare a non-conformity report, including recommendations for the rectification of non-conformities if the Council detects infringements of the Fiscal discipline law. The non-conformity report shall be prepared as soon as the non-conformity has been detected, submitted to the Cabinet and Saeima, and published on the website of the Council and of the Ministry of Finance.

During the Cabinet meeting that took place on 17 October 2017 the Cabinet discussed agenda items that foresee the reallocation of funds from the budget sub-programme "Contributions to the budget of the European Community" in the amount of 1 008 000 euro.

Funds from "Contributions to the budget of the European Community" will be allocated to the Ministry of Education and Science's budget sub-programme 09.26.00 *Grant to the society Latvian Paralympic Committee* (615 000 euro) and the Ministry of Transport's budget programme *Funds for Aviation Safety Measures* (393 000 euro).

Section 8 of the Fiscal discipline law stipulates that modifications to the budget should be accompanied by a re-assessment of the corrected maximum permissible State budget expenditure ceilings in the cases stipulated by Section 5 of the Fiscal discipline law. Point 8 of Part 1, Section 5 stipulates that this applies to cases when there are changes to the current Contributions to the budget of the European Union. Point 7 of Part 1, Section 5 stipulates that this applies to cases when there are changes to the expenditure for service of that part of the State debt, which is within the competence of the Treasury.

In view of the above, the Cabinet decision of 14 October 2017 to reallocate savings reduces maximum permissible government expenditures for 2017 by 1 008 000 euro.

According to Section 9, Part 2 of the Fiscal discipline law, if the Cabinet adopts a regulatory enactment which causes an exceedance of maximum permissible State budget expenditures laid down in the framework law that is not related to the cases referred to in Section 5, Part 2 of the Fiscal discipline law, or causes a decrease of planned State budget revenues, the Cabinet shall ensure that a regulatory enactment or regulatory enactments come into force concurrently, which compensate the increase in expenditure or decrease in revenues.

In view of the above, the Council objects to the decision made during the Cabinet meeting of 14 October to reallocate funds from the Ministry of Finance's budget sub-programmes "Contributions to the budget of the European Community". This decision reduces maximum permissible government expenditures. The decision to allocate additional funds for the abovementioned purposes when there is no fiscal space is not consistent with the restrictions stipulated in the Fiscal discipline law regarding maximum permissible government expenditure.

The Council underlines that previous non-conformities that arose as a result of (i) the decision to reallocate funds from "Contributions to the budget of the European Community" to the sub-programmes of the Ministry of Transport (Cabinet meeting, 5 September), (ii) the decision to reallocate funds from "Contributions to the budget of the European Community" to the sub-programmes of the Ministry of Health (Cabinet meeting, 14 September) and (iii) the decision to reallocate funds from "Contributions to the budget of the European Community" and "State debt management" (Cabinet meeting, 19 September) and (iv) the decision to reallocate funds from "Contributions to the budget of the European Community" to the sub-programmes of the Ministry of Culture (Cabinet meeting, 3 October), have yet to be resolved.

In order to rectify the non-conformity created on 17 October 2017 the Council recommends the following:

1. The Cabinet should prepare normative acts that fully compensate the decision to allocate an additional 1 008 000 euro and thus exceed maximum permissible state budget expenditures for 2017 stipulated in the medium-term budget framework.

Chairman of the Council

Jānis Platais
